

KENTUCKY: BY THE NUMBERS

~ 2004 Poverty and Income Update ~

Robertson County

Julie N. Zimmerman

Department of Community and Leadership Development
January, 2008

Starting in the 1990s, the U.S. Census Bureau began providing more current estimates of poverty and median household income. Before this time, county data were only available every ten years from each decennial census. These data are generated by the Small Area Income and Poverty Estimates (SAIPE) program and are produced every year by the U.S. Census Bureau.

"Kentucky: By the Numbers" is a series of county profiles produced on an occasional basis which are developed to support local decision making. The entire series is available online in the "Kentucky: By the Numbers" section of our SNARL website at: <http://www.ca.uky.edu/snarl>.

Starting in the 1990s, the U.S. Census Bureau began providing more current estimates of poverty and median household income. Before this time, county data were only available every ten years from each decennial census. These data are generated by the Small Area Income and Poverty Estimates (SAIPE) program and are produced every year by the U.S. Census Bureau.

"Kentucky: By the Numbers" is a series of county profiles produced on an occasional basis which are developed to support local decision making. The entire series is available online in the "Kentucky: By the Numbers" section of our SNARL website at: <http://www.ca.uky.edu/snarl>.
