### Mason County

Julie N. Zimmerman  
September, 2011

In order to better reflect diversity across the nation, starting with the 2000 Decennial Census and for the first time, individuals were able to report more than one race. For the 2010 Decennial Census, the practice was continued.

This issue of Kentucky: By The Numbers provides data for those reporting one race alone. In this instance, anyone reporting two or more races is grouped into a separate category. Data by race that includes those reporting one or more races are available in a separate issue of Kentucky: By The Numbers called "Race and Ethnicity Update." As before, since Hispanic origin refers to ethnicity, it is counted separately. For more information on data from the 2010 Decennial Census, see the publication: **The 2010 Census: New Decade, New Data** on the Kentucky: By The Numbers website.

## ~ Race and Ethnicity Alone ~

### Nelson County

Julie N. Zimmerman  
September, 2011

In order to better reflect diversity across the nation, starting with the 2000 Decennial Census and for the first time, individuals were able to report more than one race. For the 2010 Decennial Census, the practice was continued.

This issue of Kentucky: By The Numbers provides data for those reporting one race alone. In this instance, anyone reporting two or more races is grouped into a separate category. Data by race that includes those reporting one or more races are available in a separate issue of Kentucky: By The Numbers called "Race and Ethnicity Update." As before, since Hispanic origin refers to ethnicity, it is counted separately. For more information on data from the 2010 Decennial Census, see the publication: **The 2010 Census: New Decade, New Data** on the Kentucky: By The Numbers website.

## ~ Race and Ethnicity Alone ~

### Powell County

September, 2011

In order to better reflect diversity across the nation, starting with the 2000 Decennial Census and for the first time, individuals were able to report more than one race. For the 2010 Decennial Census, the practice was continued.

This issue of Kentucky: By The Numbers provides data for those reporting one race alone. In this instance, anyone reporting two or more races is grouped into a separate category. Data by race that includes those reporting one or more races are available in a separate issue of Kentucky: By The Numbers called "Race and Ethnicity Update." As before, since Hispanic origin refers to ethnicity, it is counted separately. For more information on data from the 2010 Decennial Census, see the publication: **The 2010 Census: New Decade, New Data** on the Kentucky: By The Numbers website.
