COOPERATIVE EXTENSION

Edmonson County

Julie N. Zimmerman. Professor, Rural Sociology October, 2014

In Kentucky, farming and agriculture ranges from the large scale irrigated cash grains operations of the western region, to the horse and general farm enterprises of central Kentucky, to small scale farming in eastern counties. The Census of Agriculture counts "any place from which \$1,000 or more of agricultural products were produced and sold, or normally would have been sold, during the census year." The USDA's National Agricultural Statistics Service (NASS) conducts the Census of Agriculture every 5 years (in years that end with a "2" or a "7").

For data on top crops and livestock, see the county profiles at: http://www.agcensus.usda.gov/Publications/2012/Online_Resources/County_Profiles/Kentucky/

The Kentucky: By the Numbers Data Series provides access to county data to support local decision making. The entire series is available at http://www.ca.uky.edu/snarl.

Farmer	<u>County</u>	<u>State</u>

Fulton County

Julie N. Zimmerman. Professor, Rural Sociology October, 2014

In Kentucky, farming and agriculture ranges from the large scale irrigated cash grains operations of the western region, to the horse and general farm enterprises of central Kentucky, to small scale farming in eastern counties. The Census of Agriculture counts "any place from which \$1,000 or more of agricultural products were produced and sold, or normally would have been sold, during the census year." The USDA's National Agricultural Statistics Service (NASS) conducts the Census of Agriculture every 5 years (in years that end with a "2" or a "7").

For data on top crops and livestock, see the county profiles at: http://www.agcensus.usda.gov/Publications/2012/Online_Resources/County_Profiles/Kentucky/

The Kentucky: By the Numbers Data Series provides access to county data to support local decision making. The entire series is available at http://www.ca.uky.edu/snarl.

<u>Farms</u>	<u>County</u>	<u>State</u>
Total number of farms	178	77,064
Land in farms (in acres)	83,382	13,049,347
Median size of farm (in acres)	97	75
Average size of farm (in acres)	468	169
Proportion of land area in farms	63.3%	51.6%
Principal Operators		
Total Number of Principal Operators	178	77,064
<u>Work</u>		
Number of principal operators for whom primary occupation is farming	91	32,137
Number of principal operators working any days off the farm	99	49,548
Age and Sex		
Average age of principal operators	56.1	57.6
Number of principal operators who are under 35 years old	25	4,479
Number of principal operators who are male	169	68,864
Number of principal operators who are female	9	8,200
Length of Time Farming		
Average number of years principal operator on present farm	22.2	22.4
Number of principal operators on present farm for 4 years or less	25	6,618
Number of principal operators on present farm for 9 years or less	44	17,257

	<u>County</u>	<u>State</u>
Principal Operators (continued)		
<u>Tenure</u>		
Number of farms where principal operator is		
Full owner	116	58,664
Part owner	53	15,250
Tenant	9	3,150
Farm Workers		
Hired farm labor	143	68,586
Hired farm labor payroll	\$2,189,000	\$377,169,000
Total migrant workers*	n/a	10,820
Unpaid labor*	165	76,822
Farm Production		
<u>Expenses</u>		
Total production expenses	\$37,339,000	\$4,778,105,000
Production expenses (average per farm)	\$209,770	\$62,002
Total Products Sold		
Market value of products sold	\$46,558,000	\$5,067,334,000
Market value of agricultural products sold (average per farm)	\$261,563	\$65,755

^{*} Hired farm labor is distinguished from migrant farm labor and unpaid labor. Hired farm labor does not include "contract laborers." Migrant workers refers to "workers whose employment requires travel that prevents the worker from returning to his or her permanent place of residence the same day." Unpaid workers "includes agricultural workers not on the payroll who performed activities or work on a farm or ranch." Total migrant workers and unpaid labor are new for the 2012 Agriculture Census. N/a = data not disclosed to retain confidentiality.

These data are from the 2012 Census of Agriculture.

Additional data are available from the USDA's National Agricultural Statistics Service at:
