

Poverty 2012

Carroll County

Julie N. Zimmerman, Rural Sociology
Department of Community and Leadership Development
February, 2014

Kentucky's poverty rate tends to be higher than the nation as a whole. In 2012, this was still the case. Child poverty rates, which are typically higher than total poverty rates, also remain above national rates.

While the American Community Survey (ACS) contains estimates with detailed characteristics of those below poverty, county and other local level estimates from the ACS often refer to multiple years.

The **official poverty rates** are available through the U. S. Census Bureau's Small Area Income and Poverty Estimates (SAIPE) program.

The Kentucky: By the Numbers Data Series provides access to county data to support local decision making. The entire series is available at <http://www.ca.uky.edu/snarl>.

Data from the Small Area Income and Poverty Estimates (SAIPE) program include a range for each estimate.

This tells us the range within which the estimate most likely falls. For ease of use, these confidence interval ranges have been converted to a margin of error and rounded to one decimal. If you have seen poll results reported in the news, when they say "plus or minus 5 points" (+/- 5) they are telling you the margin of error.

Since the margin of error tells us how reliable the estimate is, it is important to **always report the margin of error.**

For help in understanding margins of error, see: "[And Now for the Grain of Salt: Margins of Error and the American Community Survey](http://www.ca.uky.edu/snarl/KentuckyByTheNumbers/KYBTNPublications/KYBTNPublications.htm)"

	County		State	
	Estimate	MOE	Estimate	MOE
Poverty Rate, All Ages	21.3%	(+/-) 3.8	19.3%	(+/-) 0.4
Number Below Poverty, All Ages	2,256	(+/-) 401	821,067	(+/-) 15,075
Poverty Rate, Under Age 18	33.4%	(+/-) 6.5	26.5%	(+/-) 0.8
Number Below Poverty, Under Age 18	898	(+/-) 174	263,744	(+/-) 7,758
Poverty Rate, Ages 5-17 in Families	33.2%	(+/-) 6.9	24.6%	(+/-) 0.9
Number Below Poverty, Ages 5-17 in Families	604	(+/-) 125	176,603	(+/-) 6,704

Poverty 2012

Edmonson County

Julie N. Zimmerman, Rural Sociology
 Department of Community and Leadership Development
 February, 2014

Kentucky's poverty rate tends to be higher than the nation as a whole. In 2012, this was still the case. Child poverty rates, which are typically higher than total poverty rates, also remain above national rates.

While the American Community Survey (ACS) contains estimates with detailed characteristics of those below poverty, county and other local level estimates from the ACS often refer to multiple years.

The **official poverty rates** are available through the U. S. Census Bureau's Small Area Income and Poverty Estimates (SAIPE) program.

The Kentucky: By the Numbers Data Series provides access to county data to support local decision making. The entire series is available at <http://www.ca.uky.edu/snarl>.

Data from the Small Area Income and Poverty Estimates (SAIPE) program include a range for each estimate. This tells us the range within which the estimate most likely falls. For ease of use, these confidence interval ranges have been converted to a margin of error and rounded to one decimal. If you have seen poll results reported in the news, when they say "plus or minus 5 points" (+/- 5) they are telling you the margin of error.

Since the margin of error tells us how reliable the estimate is, it is important to **always report the margin of error.**

For help in understanding margins of error, see: "And Now for the Grain of Salt: Margins of Error and the American Community Survey" <http://www.ca.uky.edu/snarl/KentuckyByTheNumbers/KYBTNPublications/KYBTNPublications.htm>

Poverty 2012

Garrard County

Julie N. Zimmerman, Rural Sociology
Department of Community and Leadership Development
February, 2014

Kentucky's poverty rate tends to be higher than the nation as a whole. In 2012, this was still the case. Child poverty rates, which are typically higher than total poverty rates, also remain above national rates.

While the American Community Survey (ACS) contains estimates with detailed characteristics of those below poverty, county and other local level estimates from the ACS often refer to multiple years.

The **official poverty rates** are available through the U. S. Census Bureau's Small Area Income and Poverty Estimates (SAIPE) program.

The Kentucky: By the Numbers Data Series provides access to county data to support local decision making. The entire series is available at <http://www.ca.uky.edu/snarl>.

Data from the Small Area Income and Poverty Estimates (SAIPE) program include a range for each estimate.

This tells us the range within which the estimate most likely falls. For ease of use, these confidence interval ranges have been converted to a margin of error and rounded to one decimal. If you have seen poll results reported in the news, when they say "plus or minus 5 points" (+/- 5) they are telling you the margin of error.

Since the margin of error tells us how reliable the estimate is, it is important to **always report the margin of error.**

For help in understanding margins of error, see: "[And Now for the Grain of Salt: Margins of Error and the American Community Survey](http://www.ca.uky.edu/snarl/KentuckyByTheNumbers/KYBTNPublications/KYBTNPublications.htm)"

	<u>County</u>		<u>State</u>	
	<u>Estimate</u>	<u>MOE</u>	<u>Estimate</u>	<u>MOE</u>
Poverty Rate, All Ages	18.5%	(+/-) 3.5	19.3%	(+/-) 0.4
Number Below Poverty, All Ages	3,100	(+/-) 578	821,067	(+/-) 15,075
Poverty Rate, Under Age 18	28.2%	(+/-) 5.5	26.5%	(+/-) 0.8
Number Below Poverty, Under Age 18	1,040	(+/-) 204	263,744	(+/-) 7,758
Poverty Rate, Ages 5-17 in Families	25.0%	(+/-) 5.3	24.6%	(+/-) 0.9
Number Below Poverty, Ages 5-17 in Families	683	(+/-) 146	176,603	(+/-) 6,704
