

2017 Agriculture Profile Update

Carroll County

Julie N. Zimmerman, Professor, Rural Sociology
Cameron McAlister, Graduate Assistant
September, 2019 (Corrected)

Kentucky: By The Numbers
<http://kybtn.ca.uky.edu>

This issue of Kentucky: By The Numbers provides updated data for the **County Assessment Data Profile**.

The USDA's National Agricultural Statistics Service (NASS) conducts the Census of Agriculture every 5 years (in years that end with a "2" or a "7"). The Census of Agriculture counts "any place from which \$1,000 or more of agricultural products were produced and sold, or normally would have been sold, during the census year."

New features for the 2017 Census of Agriculture include changing items related to retail and other sales and the term "operator" has been replaced with "producer."

The Kentucky: By the Numbers Data Series provides access to county data to support local decision making. The entire series is available at <http://kybtn.ca.uky.edu>.

September, 2019 (Corrected)

Kentucky: By The Numbers
<http://kybtn.ca.uky.edu>

This issue of Kentucky: By The Numbers provides updated data for the **County Assessment Data Profile**.

The USDA's National Agricultural Statistics Service (NASS) conducts the Census of Agriculture every 5 years (in years that end with a "2" or a "7"). The Census of Agriculture counts "any place from which \$1,000 or more of agricultural products were produced and sold, or normally would have been sold, during the census year."

New features for the 2017 Census of Agriculture include changing items related to retail and other sales and the term "operator" has been replaced with "producer."

The Kentucky: By the Numbers Data Series provides access to county data to support local decision making. The entire series is available at <http://kybtn.ca.uky.edu>.
