Kentucky: By The Numbers
<http://kybtn.ca.uky.edu>

Julie N. Zimmerman, Professor, Rural Sociology. Cameron McAlister, Graduate Assistant. May, 2020.

In Kentucky, there were 493 Black or African American principal producers in 2017 on 401 farms comprising 39,654 acres (up from 31,483 acres in 2012). For principal producers who are Hispanic, Latino, or Spanish Origin, the numbers are slightly higher. In 2017 there were 593 Hispanic, Latino, or Spanish Origin principal producers on 526 farms comprising 57,452 acres (up from 49,143 acres in 2012). For principal producers reporting more than one race, there were 428 principal producers on 391 farms comprising 40,283 acres (up from 29,064 acres in 2012).

The Census of Agriculture defines a producer as “a person who is involved in making decisions for the farm operation.” A principal producer is “the person in charge or... person primarily responsible for the on-site, day-to-day operation of the farm or ranch business.” This is comparable to the principal operator in the 2012 Agriculture Census but in 2017 more than one principal producer could be designated for a farm. Demographic and other data “were collected for up to four producers per farm.” As the Census of Agriculture notes, “this may be fewer than the total producers on some farms.”

These data are from the 2017 Census of Agriculture.
Additional data for Kentucky are available from the USDA’s National Agricultural Statistics Service at:

Kentucky: By The Numbers
<http://kybtn.ca.uky.edu>

Julie N. Zimmerman, Professor, Rural Sociology. Cameron McAlister, Graduate Assistant. May, 2020.

In Kentucky, there were 493 Black or African American principal producers in 2017 on 401 farms comprising 39,654 acres (up from 31,483 acres in 2012). For principal producers who are Hispanic, Latino, or Spanish Origin, the numbers are slightly higher. In 2017 there were 593 Hispanic, Latino, or Spanish Origin principal producers on 526 farms comprising 57,452 acres (up from 49,143 acres in 2012). For principal producers reporting more than one race, there were 428 principal producers on 391 farms comprising 40,283 acres (up from 29,064 acres in 2012).

| Hispanic, Latino, or Spanish Origin | 2 | 789 |

The Census of Agriculture defines a producer as “a person who is involved in making decisions for the farm operation.” A principal producer is “the person in charge or... person primarily responsible for the on-site, day-to-day operation of the farm or ranch business.” This is comparable to the principal operator in the 2012 Agriculture Census but in 2017 more than one principal producer could be designated for a farm. Demographic and other data “were collected for up to four producers per farm.” As the Census of Agriculture notes, “this may be fewer than the total producers on some farms.”

These data are from the 2017 Census of Agriculture.
Additional data for Kentucky are available from the USDA’s National Agricultural Statistics Service at:

https://www.nass.usda.gov/Publications/AgCensus/2017/Full_Report/Volume_1,_Chapter_2_County_Level/Kentucky/
