

Data Availability

from the American Community Survey

Julie N. Zimmerman. Professor, Rural Sociology. Sept 2016.

Two types of estimates are released each year from the American Community Survey: 1- and 5-year estimates. Which estimates are available depends on the size of the county. (The 5-year estimates are the only estimates that are comparable across all counties.)

Copies of this handout and others are available online at: <http://www.ca.uky.edu/snarl>. Just click on "Kentucky: By The Numbers."

County	1-Year estimates	5-Year estimates	3-Year estimates (Discontinued)
