Rural entrepreneurship is sometimes called the ‘third leg’ of local economic development. While there is no single way to measure entrepreneurship, many rely on data for small firms to assess its breadth and depth. This issue of “Kentucky: By the Numbers” is based on a special series created for the **Kentucky Entrepreneurial Coaches Institute (KECI)**. To foster entrepreneurship, the KECI was formed to “encourage diversification of the economies in rural Kentucky.” More information is available at <http://www.uky.edu/Ag/CLD/KECI>.

Rural entrepreneurship is sometimes called the ‘third leg’ of local economic development. While there is no single way to measure entrepreneurship, many rely on data for small firms to assess its breadth and depth. This issue of “Kentucky: By the Numbers” is based on a special series created for the **Kentucky Entrepreneurial Coaches Institute (KECI)**. To foster entrepreneurship, the KECI was formed to “encourage diversification of the economies in rural Kentucky.” More information is available at <http://www.uky.edu/Ag/CLD/KECI>.

## ~ Entrepreneurship Update ~

### Martin County

Rural entrepreneurship is sometimes called the ‘third leg’ of local economic development. While there is no single way to measure entrepreneurship, many rely on data for small firms to assess its breadth and depth. This issue of “Kentucky: By the Numbers” is based on a special series created for the **Kentucky Entrepreneurial Coaches Institute (KECI)**. To foster entrepreneurship, the KECI was formed to “encourage diversification of the economies in rural Kentucky.” More information is available at <http://www.uky.edu/Ag/CLD/KECI>.

*The Kentucky: By the Numbers Data Series provides county profiles developed to support local decision making. The entire series is available at <http://www.ca.uky.edu/snarl>*
