

# Data Availability for Extension Districts from the American Community Survey

Julie N. Zimmerman. Professor, Rural Sociology. Feb. 2012.

Three types of estimates are released each year from the American Community Survey: 1, 3, and 5-year estimates. Which estimates are available depends on the size of the county. (The 5-year estimates are the only estimates that are comparable across all counties.)

Copies of this handout and others are available online at: <http://www.ca.uky.edu/snarl>. Just click on "Kentucky: By The Numbers."

District	5-year estimates only	3 and 5-year estimates	1, 3, and 5-year estimates
