

## ~ Population Change ~

### 2011 Population Estimates

(April 1, 2010 - July 1, 2011)

#### Knox County

Julie N. Zimmerman

Rural Sociology, Department of Community and Leadership Development  
September, 2012

For the years in between Decennial Censuses (conducted every 10 years), the U.S. Census Bureau produces official population estimates. Using data such as the number of births, deaths, and other records, the Census Bureau produces official estimates of the total population, population by age, sex, race/ethnicity, and the estimated change due to births, deaths, and net migration (called “components of population change”). This issue of Kentucky: By The Numbers provides the current estimates of how much of the estimated population change was due to births, deaths, and migration from the 2010 Census (April 1, 2010) to July 1, 2011.

While the [American Community Survey](#) includes population figures, they are **NOT** the official counts. To find the official population counts for your county, **always use the population estimates or the 2010 Census**.

For more data covering July 1, 2010 to July 1, 2011, go to the **Kentucky State Data Center's** Population Estimates webpage at: <http://ksdc.louisville.edu/kpr/popest/est.htm>

*The Kentucky: By The Numbers Data Series provides county profiles developed to support local decision making. The entire series is available at <http://www.ca.uky.edu/snarl>.*

	<u>County</u>	<u>State</u>
Total Population (2010 Census)	31,883	4,339,367
<b>Total Population (2011 Estimate)*</b>	<b>31,888</b>	<b>4,369,356</b>
Estimated Change in the Total Population (April 1, 2010 to July 1, 2011)	5	29,994
Percent Change in the Total Population (April 1, 2010 to July 1, 2011)	0.02%	0.69%
<b>Natural Increase</b> (April 1, 2010 to July 1, 2011)		
Estimated Total Change due to Births and Deaths	16	18,007
Estimated Number of Births	534	70,438
Estimated Number of Deaths	518	52,431
<b>Net Migration</b> (in-migration and out-migration)* (April 1, 2010 to July 1, 2011)		
Estimated Total Net Migration	-8	12,064
Estimated Net Domestic Migration	-13	5,761
Estimated Net International Migration	5	6,303

\* The estimates may not equal the total population because the total population estimate includes a residual that cannot be attributed to any specific component of change. (- = zero or rounds to zero). International migration includes migration between the U.S. and Puerto Rico, international migration of both foreign born and natives of the U.S., and movement of those in the Armed Forces.

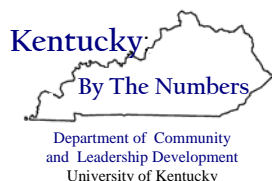

#### These data are from the Kentucky State Data Center

Additional data are available at the Kentucky State Data Center website: <http://ksdc.louisville.edu/>

And, at the U.S. Census Bureau's Population Estimates Program: <http://www.census.gov/popest/estimates.html>

## ~ Population Change ~

### 2011 Population Estimates

(April 1, 2010 - July 1, 2011)

#### Lincoln County

Julie N. Zimmerman

Rural Sociology, Department of Community and Leadership Development  
September, 2012

For the years in between Decennial Censuses (conducted every 10 years), the U.S. Census Bureau produces official population estimates. Using data such as the number of births, deaths, and other records, the Census Bureau produces official estimates of the total population, population by age, sex, race/ethnicity, and the estimated change due to births, deaths, and net migration (called “components of population change”). This issue of Kentucky: By The Numbers provides the current estimates of how much of the estimated population change was due to births, deaths, and migration from the 2010 Census (April 1, 2010) to July 1, 2011.

While the [American Community Survey](#) includes population figures, they are **NOT** the official counts. To find the official population counts for your county, **always use the population estimates or the 2010 Census**.

For more data covering July 1, 2010 to July 1, 2011, go to the **Kentucky State Data Center's** Population Estimates webpage at: <http://ksdc.louisville.edu/kpr/popest/est.htm>

*The Kentucky: By The Numbers Data Series provides county profiles developed to support local decision making. The entire series is available at <http://www.ca.uky.edu/snarl>.*

	<u>County</u>	<u>State</u>
Total Population (2010 Census)	24,742	4,339,367
<b>Total Population (2011 Estimate)*</b>	<b>24,731</b>	<b>4,369,356</b>
Estimated Change in the Total Population (April 1, 2010 to July 1, 2011)	8	29,994
Percent Change in the Total Population (April 1, 2010 to July 1, 2011)	-0.04%	0.69%
<b>Natural Increase</b> (April 1, 2010 to July 1, 2011)		
Estimated Total Change due to Births and Deaths	109	18,007
Estimated Number of Births	440	70,438
Estimated Number of Deaths	331	52,431
<b>Net Migration</b> (in-migration and out-migration)* (April 1, 2010 to July 1, 2011)		
Estimated Total Net Migration	-100	12,064
Estimated Net Domestic Migration	-109	5,761
Estimated Net International Migration	9	6,303

\* The estimates may not equal the total population because the total population estimate includes a residual that cannot be attributed to any specific component of change. (- = zero or rounds to zero). International migration includes migration between the U.S. and Puerto Rico, international migration of both foreign born and natives of the U.S., and movement of those in the Armed Forces.

Estimated Net Domestic Migration	722	5,761
Estimated Net International Migration	81	6,303

\* The estimates may not equal the total population because the total population estimate includes a residual that cannot be attributed to any specific component of change. (- = zero or rounds to zero). International migration includes migration between the U.S. and Puerto Rico, international migration of both foreign born and natives of the U.S., and movement of those in the Armed Forces.

### 2011 Population Estimates

(April 1, 2010 - July 1, 2011)

#### Magoffin County

Julie N. Zimmerman

Rural Sociology, Department of Community and Leadership Development  
September, 2012

For the years in between Decennial Censuses (conducted every 10 years), the U.S. Census Bureau produces official population estimates. Using data such as the number of births, deaths, and other records, the Census Bureau produces official estimates of the total population, population by age, sex, race/ethnicity, and the estimated change due to births, deaths, and net migration (called “components of population change”). This issue of Kentucky: By The Numbers provides the current estimates of how much of the estimated population change was due to births, deaths, and migration from the 2010 Census (April 1, 2010) to July 1, 2011.

While the [American Community Survey](#) includes population figures, they are **NOT** the official counts. To find the official population counts for your county, **always use the population estimates or the 2010 Census**.

For more data covering July 1, 2010 to July 1, 2011, go to the **Kentucky State Data Center's** Population Estimates webpage at: <http://ksdc.louisville.edu/kpr/popest/est.htm>

*The Kentucky: By The Numbers Data Series provides county profiles developed to support local decision making. The entire series is available at <http://www.ca.uky.edu/snarl>.*

	<u>County</u>	<u>State</u>
Total Population (2010 Census)	13,333	4,339,367
<b>Total Population (2011 Estimate)*</b>	<b>13,216</b>	<b>4,369,356</b>
Estimated Change in the Total Population (April 1, 2010 to July 1, 2011)	-117	29,994
Percent Change in the Total Population (April 1, 2010 to July 1, 2011)	-0.88%	0.69%
<b>Natural Increase</b> (April 1, 2010 to July 1, 2011)		
Estimated Total Change due to Births and Deaths	4	18,007
Estimated Number of Births	201	70,438
Estimated Number of Deaths	197	52,431
<b>Net Migration</b> (in-migration and out-migration)* (April 1, 2010 to July 1, 2011)		
Estimated Total Net Migration	-122	12,064
Estimated Net Domestic Migration	-122	5,761
Estimated Net International Migration	---	6,303

\* The estimates may not equal the total population because the total population estimate includes a residual that cannot be attributed to any specific component of change.
