Rural and Economic Development Programs, Rural Sociology

University of Kentucky, College of Agriculture

April, 2002

Each year, the Census Bureau releases poverty estimates for the nation as a whole and for each of the states. County level estimates, however, are produced less frequently. This data sheet compares the results from the 1990 Census with the most recent poverty estimates for counties in the United States. "Kentucky: By the Numbers" is available online at <http://www.ca.uky.edu/snarl>.
