To better reflect the growing diversity in our country, the 2000 Census changed how people could report their race. For the first time, people could report if they were a member of more than one racial category. Hispanic origin refers to ethnicity, a distinct concept from race, and thus is counted separately. "Kentucky: By the Numbers" is available online at <http://www.ca.uky.edu/snarl>.

To better reflect the growing diversity in our country, the 2000 Census changed how people could report their race. For the first time, people could report if they were a member of more than one racial category. Hispanic origin refers to ethnicity, a distinct concept from race, and thus is counted separately. "Kentucky: By the Numbers" is available online at <http://www.ca.uky.edu/snarl>.
