## ~ Travel to Work 2000 Update ~

### Logan County

Julie N. Zimmerman and Sarah Michelle Frank  
Department of Community and Leadership Development  
February, 2005

This issue of Kentucky: By the Numbers provides data on where people work, and for those who do not work at home, data are provided on how long it takes to get to work and the means of travel to work. In rural counties, workers may live in one county but work in another. In border counties, many may work in a different state. Information such as this can be important for planning programs as well as understanding local economic development.

*"Kentucky: By the Numbers" is a series of county profiles produced on an occasional basis which are developed to support local decision making. The entire series is available online at <http://www.ca.uky.edu/snarl>.*

This issue of Kentucky: By the Numbers provides data on where people work, and for those who do not work at home, data are provided on how long it takes to get to work and the means of travel to work. In rural counties, workers may live in one county but work in another. In border counties, many may work in a different state. Information such as this can be important for planning programs as well as understanding local economic development.

*"Kentucky: By the Numbers" is a series of county profiles produced on an occasional basis which are developed to support local decision making. The entire series is available online at <http://www.ca.uky.edu/snarl>.*
